EXPERIENCE

04/2014 – Present | Textivia | Raleigh, NC | Senior Web Developer

Daily Duties

Develop responsive websites for agency clients using a variety of technologies. Skills used: PHP, MySQL, (X)HTML, CSS, jQuery, Wordpress.

Developed framework based on Foundation 6, Advanced Custom Fields, and child themes to help speed up development time.

Special Projects:

Leveraged Wordpress multisite to create a system that allowed for a corporate site to create subsites for each of their dealers. This system automatically generated everything needed to allow for potential clients to find dealers near their Zip Code. Information from forms was then passed into Salesforce so client could market to potential leads.

Created a system that tied into Wordpress that matched care givers and care seekers.

Created realtor sites that tied into MLS using various IDX plugins.

08/2008 – 04/2014 | Howard, Merrell & Partners | Raleigh, NC | Senior Web Developer

Daily Duties

Maintain Internet and Intranet Web Servers for multiple agency websites.

Develop websites for agency clients using a variety of technologies. Clients have included Carolina Hurricanes, Carolina Rollergirls, BASF, Cisco Systems, Akadema Pro, Colonial Bank, Georgia Pacific, Invacare, INDA - Association of the Nonwoven Fabrics Industry, KIOTI Tractor, Strikelron, Serious Robots. Skills used: PHP, MySQL, (X)HTML, CSS, jQuery, Wordpress, Magento.

Develop custom Wordpress plugins for agency clients.

Provide technical support for both Windows and Mac OSX users.

Test new development technologies/frameworks.

Projects have won numerous local and international awards (Addys), most recently KIOTI tractors won a Silver W3 Award.

10/2003 – 09/2008 | Oklahoma State Regents for Higher Education | Oklahoma City, OK | Web Administrator

Daily Duties

Maintain Internet and Intranet Web Servers for multiple agency websites.

Manage day to day operations of Web development Staff.

Promote accessibility and web standards among agency developers.

Develop applications in PHP or ASP.NET (VB) as needed.

Assist with troubleshooting of Internet/Intranet applications.

Special Projects:

Act as agency representative for the Governor's Task Force on Accessibility. This task force helped to guide development of legislation aimed at moving all electronic information technology towards being accessible to individuals with disabilities.

Serve on the web sub-committee modifying existing standards (Federal Section 508) and adding additional standards to Oklahoma House Bill 2197.

Served on the Electronic Information Technology Accessibility Council for the State of Oklahoma.
